

Welcome to our tour presentation.

Part 1: Healthy Mind, Body, Planet presentation by Angela Bischoff, Greenspiration

Angela's presentation focuses around the dangers of antidepressants. See accompanying Depression Expression for more in-depth research and recommended resources.

Resources used for Part 1 include:

- *Prescription: Suicide?, Directed by Robert Manciero, 2005
- *Little Boy Blue, Directed by Donna Barker, 2004
- CBC The Nature of Things, Selling Sickness, Sept. 2004
- CBC Fifth Estate, Little Helpers, June 16, 2004

Part 2: Healthy Mind, Body, Planet presentation by Kelly Reinhardt and Bridget Haworth. boilingfrog

Boilingfrog's presentation features excerpts dealing with corporate control and communal health from a variety of audio, visual and printed mediums. Many of these excerpts, listed below, represent fabulous pieces of work that should be experienced in their entirety. Other excerpts that are not identified below have been taken from tv news and corporate messages. These divergent media sources have been woven together to reflect our awakenings. Albeit overwhelming at times, we've tried to be entertaining while exposing the dilemma of the conscious mind – to close one's eyes and avoid the pain? or dig for more critical analysis and then take action? The good news is we've ended our program in a magical place.

Media Sources: Corporate Control, Module 1
